PRIMARY EXAMINER

The request for consideration filed on 1/20/06 has been entered in the file.

Claims 1-18 have been allowed over the prior art of record and in light of applicants' arguments.

The following is an examiner's statement of reasons for allowance: regarding claims 1 and 12, the prior art fail to teach a data transfer protocol server that transfers data received from one client to another client connected to data transfer server through socket, on receiving data forward request from the other client. When the other client is not connected to the server, data received from the client is stored in electronic mailbox of the server. Receipt and transfer of data is recorded in a relational database.

Regarding claim 17, the prior art fail to teach the claimed invention as written: (a) negotiating a sender's initial header key between the sending client and the server; (b) negotiating a receiver's initial header key between the receiving client and the server; (c) the server receiving a header from a sending client having header data encrypted based upon the sender's header key, the header data having a data key; (d) the server decrypting the header and transmitting an acknowledgement to the sending client; (e) the server receiving a data transfer from the sending client, the data transfer being encrypted based upon the data key; (f) the server transmitting a second header to the receiving client, the second header having header data encrypted based upon the receiver's header key, the header data having the data key; and (g) the server transmitting the data transfer to the receiving client, the data transfer being encrypted based upon the data key whereby the data key is passed from the sending client to the server encrypted by the sending client's header key and from the server to the receiving

client encrypted by the receiving client's header key, the data encrypted by the data key being transferred from the sending client to the receiving client without decryption by the server.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
